

# DO YOU NEED

# *A Handy Tool*

# THAT WILL DO THINGS LIKE THIS?

★ It's the new Vise-Wrench—that combines the portability and convenience of ordinary pliers with the powerful locking grip of a vise. While work is being held, both hands can be free for operations. When completed, work can be released instantly.

Known as Model VG-10, the Vise-Wrench is 10 inches long and weighs 18 ounces.

Normal hand grip can attain a clamping pressure at the jaws up to 1 ton.

Jaws are alloy steel forgings with machined teeth (properly heat treated for greatest wear resistance) welded to stamped body construction (also heat treated). Send for new catalog.
